## **1.1.4 Agile Basics References**

Additional References and Reading:

Agile Manifesto: <http://agilemanifesto.org/>

- The first document that almost EVERY agile course will start with - because it is the most important
- Foundational online document capturing the beliefs of Agilists culminating in 2001
- A key reference for this course and the principles that underly the courses in the Agile Project Management Program

Agile Manifesto Principles: <http://agilemanifesto.org/principles.html>

- Often overlooked, these fourteen principles exemplify the details needed to make Agile work
- Example principle:

*The most efficient and effective method of conveying information to and within a development team is face-to-face conversation.*

Wikipedia's definition of

Scrum: [https://en.wikipedia.org/wiki/Scrum\\_\(software\\_development\)](https://en.wikipedia.org/wiki/Scrum_(software_development))

- We're not above referencing Wikipedia - especially an article that has so much great information in one location!
- This is also the source of our key graphic on Scrum that we use throughout the course
